

FAYO（FAYO）

Project Overview Document

Future Assets You Own · The Future Is Yours

Network	Solana (SPL Token)
Total Supply	10,000,000,000 FAYO
Contract	`91fqZNfSU7w12ym6DcwchXRjaqrmezgrCxGFNmvqbzHb`
Website	https://fayo.world
Staking	Streamflow stake pool 51NhiR…rn6USt
Explorer	solscan.io/token/91fqZN…vqbzHb

Document version 2.1 (Advertiser allocation added Nov 3, 2026) · Generated Nov 03, 2026

1. Introduction

FAYO — Future Assets You Own — is a community token on the Solana blockchain built around the future of AI and digital ownership.

The token was created with **no mint authority, no freeze authority, and immutable metadata**, which makes its supply structure fixed, trustless, and irreversible. The exact scripts used to create it are published in the project's public GitHub repository.

FAYO does not represent ownership, revenue rights, or investment guarantees. It is a freely transferable community token within the Solana ecosystem.

> The Future Is Yours.

2. Token Characteristics

Attribute	Value
Token Standard	SPL (classic SPL Token program)
Name / Symbol	FAYO / FAYO
Total Supply	10,000,000,000 FAYO (fixed)
Decimal Precision	9
Mint Authority	Revoked permanently
Freeze Authority	Revoked permanently
Metadata	Immutable (Metaplex Token Metadata, `isMutable = false`)
Created	Oct 29, 2026
Creator Wallet	`HMjKM3jCdMHHAMBpNV71ruu3Lk66B6WSHGsMoGSsZWyD`
Mint Address	`91fqZNfSU7w12ym6DcwchXRjaqrmezgrCxGFNmvqbzHb`
Metadata URI	https://gateway.irys.xyz/J2QhzSXcvzB2UcQoPYvvuAi6Ui3wxuhvLBEdWEsy4k6p

3. Liquidity & Trading

The Meteora liquidity pool has **not been created yet**.

- **Primary pool (Meteora):** Coming soon / TBA
- **DEX / aggregator routing (Jupiter):** Available after the liquidity pool opens
- **Initial Liquidity wallet (10%, unlocked):** `21jP79P297pg91xgpu3SSvNFhX4bASyZtwdoNS3GhHEw`

- **Liquidity Management wallet (4.5%, unlocked emergency reserve):** `JBMoTF7h4HRhagXWmNnGiVeMN7Wsedne4zVsvPwCM1ew`
- **Liquidity Reserve (10%)** is locked in a Streamflow contract and unlocks monthly over 12 months.

The official pool address will be published only through the official channels listed in Section 9 and in the GitHub repository. Any pool or "presale" not announced there should be treated as unofficial.

4. Token Distribution Final

The allocation below is **final** and live on Solana mainnet. Every wallet, vesting contract and transaction is linked and can be verified on Solscan and Streamflow.

Allocation	%	Amount (FAYO)	TGE	Vesting	Wallet	Contract	Tx
Initial Liquidity Reserved for the future Meteora liquidity pool (pool: coming soon).	10%	1,000,000,000	100%	Unlocked	Wallet	—	Transfer
Liquidity Management Unlocked emergency reserve for liquidity pool management. Originally 5%: on Nov 3, 2026, 0.5% (50,000,000 FAYO) moved to the Advertiser vesting contract, and its 95,000 FAYO Streamflow fee (0.19%) was paid from this wallet.	4.5%	449,905,000	100%	Unlocked	Wallet	—	Transfer
Staking Rewards Locked in the Streamflow staking reward pool. 8% allocation minus 14,630,000 FAYO of Streamflow vesting fees (0.19%) = 785,370,000 FAYO funded.	8%	785,370,000 (funded)	0%	Until fund is used, daily accrual	Stake Pool	Reward Pool	Fund reward pool
Creator Creator allocation, linear monthly vesting.	20%	2,000,000,000	0%	24 months, monthly	Wallet	Streamflow	Create vesting
Exchange Listings Reserved for exchange listings.	16%	1,600,000,000	0%	12 months, monthly	Wallet	Streamflow	Create vesting
Liquidity Reserve Locked reserve to support liquidity depth.	10%	1,000,000,000	0%	12 months, monthly	Wallet	Streamflow	Create vesting

Allocation	%	Amount (FAYO)	TGE	Vesting	Wallet	Contract	Tx
Advertising & Marketing Marketing and community campaigns.	10%	1,000,000,000	0%	12 months, monthly	Wallet	Streamflow	Create vesting
Airdrop Community airdrops.	10%	1,000,000,000	0%	12 months, monthly	Wallet	Streamflow	Create vesting
Support & Development Team Support, development and operations.	10%	1,000,000,000	0%	12 months, monthly	Wallet	Streamflow	Create vesting
Services & Providers Payments to service providers (legal, tooling, infrastructure, etc.).	1%	100,000,000	0%	12 months, monthly	Wallet	Streamflow	Create vesting
Advertiser Advertiser allocation, linear monthly vesting (started Nov 3, 2026). Funded from Liquidity Management.	0.5%	50,000,000	0%	12 months, monthly	Wallet	Streamflow	Create vesting
Total	**100%**	**10,000,000,000**					

Streamflow charged a 0.19% fee on the 7.7B FAYO placed in vesting contracts (14,630,000 FAYO). This fee was taken from the 8% staking allocation, so 785,370,000 FAYO were funded into the staking reward pool. The Advertiser contract (50,000,000 FAYO, added Nov 3, 2026) carried a separate 95,000 FAYO fee, paid from the Liquidity Management wallet.

5. Vesting

- All locked allocations are held in **8 Streamflow vesting contracts** that are **non-cancelable** and **non-transferable**.
- Vesting started **Oct 30, 2026 (~11:20 UTC); Advertiser contract Nov 3, 2026** with **no cliff** and linear monthly (every 30 days) unlocks.
- **Creator (20%)** vests over **24 months**.
- **Exchange Listings (16%), Liquidity Reserve (10%), Advertising & Marketing (10%), Airdrop (10%), Support & Development Team (10%) and Services & Providers (1%)** vest over **12 months**.
- **Advertiser (0.5%)** vests over **12 months**, starting Nov 3, 2026 (funded from Liquidity Management).
- Only **Initial Liquidity (10%)** and **Liquidity Management (4.5%)** are unlocked. **Staking Rewards (8%)** are locked in the Streamflow staking reward pool.

6. Staking

FAYO staking runs on **Streamflow Staking** (created Nov 3, 2026).

Parameter	Value
Stake pool	`51NhiRZ1Q66kdkaz6YRw5x47CCTvinQ9gWfvbUrn6USt`
Reward pool	`893nTo8dyei4A4jAxnshpvjpmcNGoMfZNKAXcvSDQt6q` (Fixed rewards)
Reward fund	785,370,000 FAYO (finite)
Lock period	6 to 12 months (chosen by the staker)
Weight	1x at 6 months, rising linearly to 2x at 12 months
Reward rate	0.0015 FAYO per weighted staked FAYO per day
Cap / expiry	No staking cap · No expiry date
Transactions	Create pool · Create reward pool · Fund reward pool

At the fixed rate this is roughly **27% in total for a 6-month lock (1x weight)** and roughly **110% annualized for a 12-month lock (2x weight)**, only while the reward fund lasts.

Rewards are paid from a **finite fund**. When it is exhausted, rewards **stop**. The reward rate is a mechanical parameter of the pool, **not a promise of returns**, and nothing about the price or value of FAYO is guaranteed.

7. Decentralization & Security

- Mint authority revoked — no additional minting is possible
- Freeze authority revoked — no wallet can be frozen
- Metadata immutable — name, symbol and image can never be changed
- Classic SPL Token program — no transfer hooks, fees, or upgradeable custom logic

- Audit: **No audit has been performed**

On-chain proof:

- Create transaction: `5DRn7spAj2…C9g7zBkvxj`
- Revoke transaction: `5BCFrdLnKb…hr7ETNQUuE`
- RugCheck: https://rugcheck.xyz/tokens/91fqZNfSU7w12ym6DcwchXRjaqrmezgrCxGFNmvqbzHb

8. Roadmap

The roadmap is directional. It contains **no dates and no financial promises** — value is defined by the market.

> **Phase 1 — Foundation**
> ✔ Token created on Solana · ✔ Mint & freeze authorities revoked · ✔ Immutable metadata · ✔ Website and official channels · ✔ Public GitHub repository with token-creation source

> **Phase 2 — Launch**
> ✔ Final tokenomics · ✔ Wallets funded and published · ✔ 8 Streamflow vesting contracts · ✔ Streamflow staking pool · Open the official Meteora liquidity pool (coming soon)

> **Phase 3 — Growth**
> Community building and campaigns · Applications to market data trackers · Independent audit (planned)

> **Phase 4 — Ecosystem**
> Community initiatives around AI and digital ownership
